In Lydia Kiesling's razor-sharp debut novel, *The Golden State*, we accompany Daphne, a young mother on the edge of a breakdown, as she flees her sensible but strained life in San Francisco for the high desert of Altavista with her toddler, Honey. Bucking under the weight of being a single parent and her Turkish husband is unable to return to the United States because of a processing error, Daphne takes refuge in a mobile home left to her by her grandparents in hopes that the quiet will bring clarity.

But clarity proves elusive. Over the next ten days Daphne is anxious, she behaves a little erratically, she drinks too much. She wanders the town looking for anyone and anything to punctuate the long hours alone with the baby. Among others, she meets Cindy, a neighbor who is active in a secessionist movement, and befriends the elderly Alice, who has traveled to Altavista as she approaches the end of her life. When her relationships with these women culminate in a dangerous standoff, Daphne must reconcile her inner narrative with the reality of a deeply divided world.

Keenly observed, bristling with humor, and set against the beauty of a little-known part of California, *The Golden State* is about class and cultural breakdowns, and desperate attempts to bridge old and new worlds. But more than anything, it is about motherhood: its voracious worry, frequent tedium, and enthralling, wondrous love.

The Golden State was opened in 2007 by two friends who had very limited restaurant experience and mostly no idea what they were doing. All they knew was that they cared about California, and showing off just how great the products of their home state could be. *The Golden State: A Novel*: Lydia Kiesling: 9780374164836 ... The Golden State is a perfect evocation of the beautiful, strange, frightening, funny territory of new motherhood. Lydia Kiesling writes with great intelligence and candor about the surreal topography of a day with an infant, and toggles skillfully between the landscape of Daphne's interior and the California desert, her postpartum body and the body politic. *The Golden State* by Lydia Kiesling - Goodreads *The Golden State* is a novel of sparse landscape and deep emotion. When Daphne and her baby drive to the high desert of Northern California, they are alone in a way that feels enervating and dangerous. Daphne is written with such a strong sense of feeling, it inevitably carries over to the reader.
